About Me

Frontend Developer with nearly 2 years of experience in React, TypeScript, and modern web development. Experienced in building real-world applications in collaborative teams, including at Anorbank, with a focus on scalable architecture, API integration, state management, and clean code. Frontend Mentor with a passion for continuous learning and knowledge sharing.

EDUCATION

Algoritm Education Center

Uzbekistan, Namangan
Graduated September 2024

- **Front-End Development**
- Completed coursework in HTML, CSS, JavaScript, and React
- Built multiple front-end projects as part of the curriculum

EXPERIENCE

Algoritm Education Center

Head Teacher

Uzbekistan, Namangan
October 2024 – September 2026

- Taught and mentored 100+ students in frontend development, guiding them to successfully complete the program and achieve strong technical proficiency
- Prepared and coached students for IT competitions, contributing to multiple hackathon wins

Anorbank

Frontend Developer Inter

Uzbekistan, Tashkent
Present

- Contributed to real-world frontend projects in a collaborative development team.
- Developed and maintained UI features using **React, TypeScript, Mantine, and TanStack Query**.
- Worked with **FSD architecture, REST APIs, authentication, and state management**.
- Participated in code reviews, Git-based workflows, testing, and team development processes.

PROJECTS

E-commerce

Anorbank

- Developed an e-commerce application as part of the **ANORBANK Talent Accelerator** program, implementing product browsing, filtering, and user interactions.
- Integrated REST APIs and managed server state using TanStack Query.
- Built the application with a scalable **Feature-Sliced Design (FSD)** architecture and focused on reusable UI components and maintainable code.

Taigo

Anorbank

- Built a collaborative Agile project-management platform in a frontend team, implementing task management, assignments, deadlines, and drag-and-drop functionality.
- Worked with Git/GitHub, token-based authentication, TanStack Query, FSD, and unit testing.

ACTIVITIES

Hackathon Achievements

Uzbekistan, Namangan

June 2024 – Aug 2024

- *Won competitive hackathon focused on JavaScript problem-solving and algorithmic challenges*
- *Won 2 front-end hackathons, delivering fully functional UI projects under time constraints*

SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript (Basic)
- **Frameworks/Libraries:** React, Redux Toolkit, Zustand, TanStack Query, React Router, Vitest
- **UI Libraries:** Sass, Tailwind, Bootstrap, Mantine UI
- **Tools:** Git, GitHub, Figma
- **Principles:** DRY, KISS, Responsive Design, REST API Integration

Languages

- Uzbek - Native
- Russian – Advanced
- English – B2 (IELTS 6.5)
